Zebronics Nepal

I successfully launched and designed the brand identity for Zebronics Nepal, facilitating the entry of this renowned Indian brand into the Nepalese market.

Known for its extensive range of consumer electronics and IT peripherals, Zebronics has built a reputation for innovation, affordability, and quality. My contributions helped align the brand's offerings with local consumer preferences, establishing a strong presence in Nepal.

Nepal Can Move

As a Multimedia Designer for Nepal Can Move, where my main role was creating visual content for both *digital and print platforms*.

I designed ads, promotional materials, and social media graphics to help boost the brand's visibility. I also edited videos and ensured that all visual elements aligned with the company's branding.

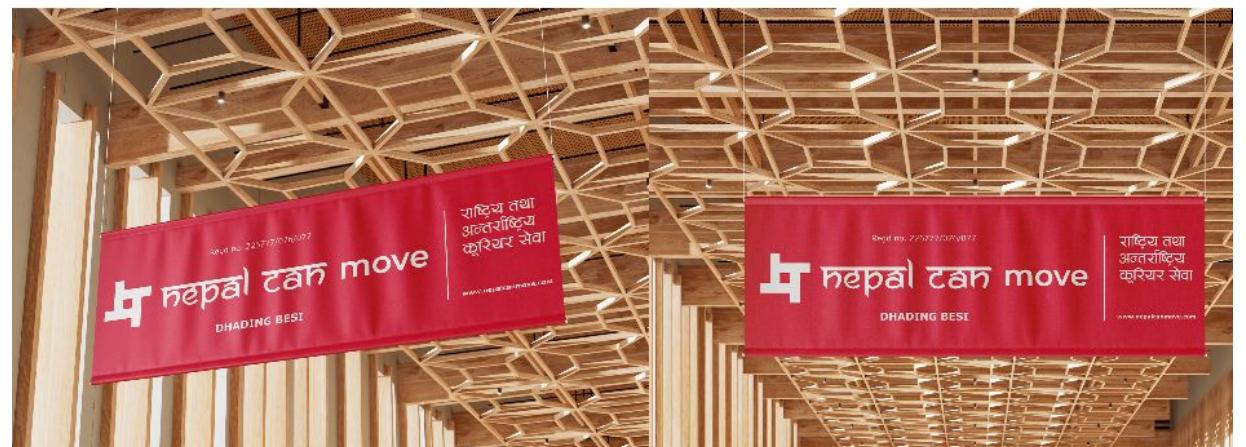

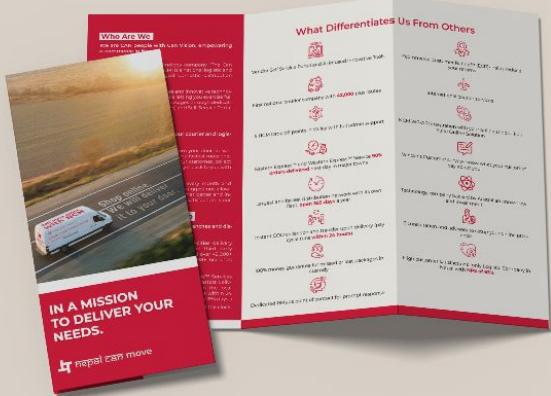

While I occasionally worked on the podcast as a host and editor, my primary focus was on delivering high-quality designs that effectively communicated the brand's message.
